

MERGING ART WITH SCIENCE

Robyn D. Siperstein, M.D. Focuses On Making Dermatology Patients Look And Feel Better

Robyn D. Siperstein, M.D.

and lasers for complete facial rejuvenation.

“Whether it’s clearing up acne, detecting and removing skin cancer or boosting a patient’s self-esteem through the use of cosmetic procedures, our focus is on helping our patients feel and look better,” says Dr. Siperstein.

Siperstein Dermatology offers patients of all ages a customized, comprehensive approach to treatment. The highly trained staff utilizes both surgical and non-invasive treatments including: Excimer & Sciton Laser treatments, Photofacial with Skintyte, Hydrafacials, Dermalpen and the latest in fillers and

What do you get when you combine a love of art with a passion for science? Ask anyone who has been a patient of Robyn D. Siperstein, M.D. and they will tell you – you get a dedicated, caring and skilled dermatologist who offers the latest advances in cutting-edge cosmetic and medical dermatological care

When it comes to your skin, health and beauty go hand-in-hand. That’s why Siperstein Dermatology Group offers patients a wide variety of medical and cosmetic services in Boca Raton and more recently in a state-of-the-art, 8,000-square-foot skincare center in west Boynton Beach.

“We can help you to find the best option available to fit your needs.”

To give patients the best care available, Dr. Siperstein now offers a concierge option, providing patients with at least 30 minutes of uninterrupted time with her.

Dr. Siperstein’s dedication to her patients and her practice has been rewarded with continued success and steady growth, allowing her to expand from one to five board-certified dermatologists in less than five years. Her practice offers the latest in cutting-edge treatments that employ targeted techniques, using injectables

techniques to ensure patients look and feel the best they can. In addition, Siperstein Dermatology was one of the first practices in Palm Beach County to offer Kybella, an FDA-approved injectable fat dissolver for stubborn chin and neck areas.

“There are many procedures available that don’t require a lot of downtime but will help to revitalize your skin and make you look and feel better,” says Dr. Siperstein. “We can help you to find the best option available to fit your needs.”
