

## WHO'S WHO IN HEALTH &amp; BEAUTY

Dr. Robyn Siperstein attended Yale University where she grew to excel in art and science with a love for medicine, which is where she found a place for all her passions in the field of Dermatology. Dr. Siperstein is now an expert speaker on skin cancer, geriatric dermatology and cosmetic dermatology, and has lectured both in-person and on the radio.

In 2010, Dr. Siperstein started her own practice in Florida that mirrored her values, offering the highest level of patient care, and has been joined by other Ivy League practitioners who share her passion. Over the past 6 years, Siperstein Dermatology Group has grown to a team of six board-certified dermatologists and two state-of-the-art facilities. Their offices in Boca Raton and Boynton Beach are equipped with the latest technology to treat all skin conditions. Some of the newest treatments include laser treatments for psoriasis, sun damage and wrinkles. Dr. Siperstein is always on the cutting-edge, and was one of the first doctors in Palm Beach County to offer Kybella to reduce double-chin

fat, Volbella (the newest FDA filler) and cannulas to decrease bruising.

Each patient receives highly personalized attention and a level of service that is above and beyond the norm. All providers are trained in diverse specialties to offer patients a wide-range of medical and cosmetic perspectives, and are authorities in their respective fields.

"Siperstein Dermatology Group fulfills my vision of creating a practice with integrity and the highest ethical standards where the focus is compassion, respect and individualized, first-rate medical care for every patient," says Dr. Siperstein. "By paying close attention to our patients' dermatologic needs and listening to their concerns, we aim to establish a physician-patient relationship based on trust and mutual respect."

This relationship exemplifies Siperstein Dermatology Group's commitment to patient satisfaction. "We prioritize the patient experience from initial appointment to follow-ups to make sure all of your medical and cosmetic needs are addressed."
